American Wood Care did a great job staining the exterior of my house. It had been years since proper maintenance had been done on the exterior wood, Michael explained the procedure and answered any questions clearly.

The best part of the service was getting the job done in a timely manner. It didn't go on for days or weeks. Michael was always punctual and efficient. I would recommend American Wood Care, the end result of our house was so good our neighbors hired Michael to do their house!
